U.S. Patent and Trademark Onic PTO-326 (Rev. 04-01)

Application/Control Number: 09/863,976

Art Unit: 1614

Claim 56 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 10.

Restriction to one of the following is required.

Group I: claims 26-46 drawn to method for identifying organic non-peptide compounds without an nonoclonal antibody.

Group II: claims 46-55 drawn to methods for identifying organic non-peptide compound with an antibody present.

The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to one Group would not be a reference to another Group under 35 U.S.C. 103. Therefore, restriction for examination purposes is proper.

Applicants are required to make a provisional election even though this requirement is traversed.
